

Faculty position, Professor

School of Life Science and Technology
Tokyo Institute of Technology

1. Position title

Full Professor (one person).

2. Affiliation

School of Life Science and Technology, Tokyo Institute of Technology.

3. Area of specialization

Biotechnology (including Bioengineering, Biophysical chemistry, Bioinorganic chemistry, Bio-sensing, Bio-imaging, etc.).

4. Qualifications

Applicants are required to have a Ph.D. or doctoral degree, and to have teaching ability both in Japanese and English. Applicants are expected to have superb research achievements and enough educational experiences in a cutting-edge Biotechnology field. Applicants are also expected to participate in administration of our school.

5. Expected start date

April 1, 2018, or the earliest date thereafter.

6. Documents to be submitted

(1) Curriculum vitae (with photograph, telephone number, and e-mail and mailing address) including educational records, professional career records, activity records in academic society and awards.

(2) Summary of research publications including (i) numbers of research publications categorized into the following two types (refereed (peer-reviewed) original articles and review articles), patents and other papers, (ii) list of high-impact journal names, and (iii) *h*-index of the applicant with the name of database used.

(3) A list of research publications categorized into the following two types (refereed (peer-reviewed) original articles and review articles), patents and other papers. The number of citations and impact factor of the journal for each paper should be provided in the list.

(4) Reprints or copies of five significant articles (original papers and/or review articles).

(5) Brief statement of the applicant's research interests, including their appealing points (~2 pages in A4-size sheet).

(6) Perspectives for future researches (1 page in A4-size sheet).

(7) Educational experiences and policy (1 page in A4-size sheet).

(8) List of acquired research funds (including the names of the funds, project titles, amounts, periods of research, and allotted amounts (if not the principal researcher)) in the last decade.

- (9) Administrative contributions to the applicant's faculty.
- (10) Activity in academic societies and other social activities.
- (11) Contact information of at least four reference persons (affiliation, telephone number and e-mail address).
- (12) USB memory or CD-ROM including electronic data of the above documents.

7. Deadline

December 8, 2017

8. Mailing address and notice

To Selection Committee for a Professor of Biotechnology
Life Science and Technology Group Administrative Division, School of Life Science and Technology, Tokyo Institute of Technology.
4259 B-70 Nagatsuta-cho, Midori-ku, Yokohama 226-8501, JAPAN
Telephone: +81-45-924-5940

Note: Applicants must indicate "Application Documents for Professor of Biotechnology" in red on the front page of the envelope. Applicants should send all of the application documents by a registered post mail or express courier service with a tracking system. We will not accept the application by e-mail or electric file attachment. The documents will not be returned. Submitted documents are strictly protected under the Privacy Policy of Tokyo Institute of Technology.

9. Inquiries

To Selection Committee
e-mail : sc-bioeng2@bio.titech.ac.jp

10. Others

- (1) Tokyo Institute of technology values a diverse workforce and welcomes applications from all sections of the community.
- (2) Our university provides start-up funding through an internal support system, and successful applicants may have access to such a system.
